3.5 What the Police and NZPA require from a candidate for “B” endorsement

That the person:

- attends shooting meetings on a regular basis;
- demonstrates safe handling of pistols;
- has a working knowledge of the club, competition and safety rules, and of the relevant bits of the Memorandum of Agreement between the Police and the NZPA (a copy of this will be available from your club secretary);
- displays competence in club activities;
- actively participates in organized club activities a minimum of 12 times with in the six months immediately before applying for a B;
- has attended a training session based on this manual and has demonstrated a knowledge of the contents sufficient to pass the appropriate test paper for the type of shooting they will be doing to start with.

The requirements for regular frequent attendances are intended to give members of your Club's Committee sufficient opportunity to witness your development of safe pistol handling and shooting competence, as well as providing you with ample scope to demonstrate safe and responsible attitudes towards firearms. The period of twelve attendances also ensures that a trend in your ability is established, and that no single occurrence would bias your record.
